## BIG MEETING HELD BY MOOSE ORDER

Spectacular Street Parade  
Precedes Speaking and  
Banquet in Hall.

For the purpose of stimulating interest in the objects and benefits of the Loyal Order of Moose, the Clarksburg lodge of the organization held a big meeting here Tuesday night in which about five hundred of this and neighboring cities participated. The affair consisted of a spectacular street parade and addresses by prominent members and a banquet in the Moose lodge hall in the Rock Bell building on North Fourth street.

In the parade were mounted policemen, several automobiles, three bands, banners and equine representation of a moose. Many of the members were attired in gay costumes. Gregory's band, of Northview, led the local members, 150 members of the Fairmont lodge, who came here in two chartered trolley cars, were headed by the First Regiment band of that city; and a hundred or more Grafton members, who came on Baltimore and Ohio railroad train No. 55, were escorted by Vincent's band of that city.

Eloquent and instructive addresses were made in the lodge hall by John H. Risbeck, of the Pittsburgh lodge, who is a national organizer of the order; J. H. Ferriester, secretary of the Pittsburgh lodge; Sidney A. Schwartz, of Titusville, Pa., national director; John A. Rodewig, Jr., of York, Pa.; officers of the several lodges participating and others at the banquet.

The meeting was a big success and all taking part enjoyed it to the utmost.

## LAWLESS MEN DISAPPEAR WHEN SOLDIERS APPROACH

Through Fear That Their Ar-  
rests for Crime Would  
Take Place.

### SEVERAL ARE TAKEN

In Other Countries and They  
All Will Be Brought to  
Trial Soon.

CHARLESTON, W. Va., Nov. 20.—Early reports from the strike zone today contained no alarming news. Militiamen sent through the more troublesome sections of the district yesterday found the camps deserted, where large numbers concentrated recently but not a person could be seen. This has a two-fold purpose. These camps have been the rendezvous for the men who have been the cause of the militia's being called out the second time. That the camps are deserted are interpreted in some quarters to mean that had the occupants remained they would have been under arrest by this time, charged with various crimes.

It is known, however, that some of these leaders have been captured in other counties of the state where they sought shelter when the militia began to return. The assault on M. A. McCoy at Montgomery yesterday is said to have been the work of a band of a dozen who have met all trains at Montgomery for the purpose of ascertaining who are coming into the mining district.

Frequently persons have been assaulted. McCoy had been employed on Cabin creek. He went to Montgomery and purchased a ticket for himself and wife for Catlettsburg, Ky. The gang jumped on him and beat him into insensibility. Two of the men were arrested and fined \$12 each. Thus far it has been impossible to ascertain the names of the persons participating in the assault or the names of the persons fined, despite diligent efforts.

The military commission is in session again today. The three cases tried yesterday will probably come to Governor Glascock today. Until he has passed on the findings, the sentences will not be known.

Committee.

WASHINGTON, D. C., Nov. 20.—The so-called money trust investigation by the House banking and currency committee will be resumed here December 2.

But Prompt Action on the  
Part of the Department  
Saves Building.

Fire broke out in the residence of L. D. Starkey at the corner of Mechanic and Fifth streets Wednesday afternoon. But prompt work on the part of the fire department, neighbors and others soon resulted in its being extinguished.

The large frame building is owned by Judge Charles W. Lynch and M. F. Robinson. Headway of the blaze would doubtless have resulted in the destruction of the building and its contents. Dr. H. E. Sloan discovered the fire and gave the alarm.

The blaze appears to have originated in a closet under the front stairway, where various articles of an inflammable nature were stored; the flames flashed all the way up to the roof and some of the weatherboarding of one corner of the house was burned.

Interior damage was done, including inside walls and some rafters together with the ceilings. Water also damaged household goods. Smoke throughout the house handicapped the firemen to some extent. The amount of damage is only a few hundred dollars.

A large crowd of spectators was attracted to the scene owing to the central location.
